## Commercial Television Systems

### Video Status Board

The **Video Status Board** by Horton & Associates is a completely user-configurable display system used by many departments for immediate display of information. This can be used by Nursing stations (patient status), maintenance (project tracking) and construction departments for instant updates on all projects. The display is a 42" LCD flat screen full color LCD monitor.

The output display can be modified to up to 10 columns and 25 rows. This window can be changed as far as overall size and location on the LCD monitor. Each column has a user-defined label, and each field can be labeled individually. You can change the color of an entire row and even define the border colors!

Horton & Associates Video Status Board						
Room	Patient	Diet	CAT	IV	MD	Nurse
4560	Larry	NPO	Yes	Yes	Allcome	Betty
5446	Curly	Cleers	No	No	Allcome	Wilma
444	Moe	Regular	No	Needs	Allcome	Barney

The system consists of a computer with keyboard, monitor, mouse and large display monitor. The large display is wall mounted with a 50' connection cable. Operators input information in the appropriate field, and save the entry. This information is instantly displayed on the output monitor. The basic rows and columns can be changed to meet the daily change of information that needs to be displayed.

This kit includes:

- 42" Flat panel LCD display with TV capability
- Peerless flat wall-mount
- Dell Inspiron small-format computer
- 50' of VGA cable with wallplates
- 17" Color LCD monitor
- Horton & Associates Software license

The STAT-LIC is a one time charge for the software for this system.  
This software is proprietary to Horton & Associates Inc.
